EXCHANGE AT ECA

Students can take a maximum of 8 disciplines per semester. The list of subjects is available at the [Jupiterweb system](#). Although we need a previous study plan, we offer two weeks, after the beginning of the academic semester, for the students to make the necessary changes.

All disciplines are taught in Portuguese.

Many disciplines have special curriculum requirements that students should take into account before submitting their applications. Therefore, the requests will be analyzed considering the Transcription of Records and the Study Plan.

Before the beginning of the academic semester, there will be a meeting to give some important information. **The participation of the students is mandatory.**

The University of São Paulo doesn't offer accommodation to exchange students.

Internship programs for exchange students in Brazil are not allowed by the University of São Paulo.

Please, note that exchange students must be covered by an international health insurance.
